

3 March 1953

Memorandum for: The Director of Central Intelligence

Subject: Joint Congressional Committee
on Atomic Energy

1. Mr. Borden, Executive Director of the staff of the Joint Congressional Committee on Atomic Energy, informed me that the four ranking members of the Committee were planning to discuss on Tuesday afternoon with Acting Chairman Durham the question of the appearance of the DCI before the Committee.

2. While this call to me may be a move by Mr. Borden to "smoke out" a firm date for your appearance, it is recommended that you may wish to call Congressman Durham this morning as he has now returned to Washington.
